Chapter 3 Roll of Thunder Character and Conflict

The way we act, the things we do, the way we react to situations, to problems, to *conflicts* are usually as a result of the kind of people we are, our personality, or our *character traits*. This is true of the characters in Roll of Thunder, as well. *Stacy*, Christopher John, *Cassie*, and Little Man's responses/reactions to the conflicts in their lives are closely linked to the type of people they are. What they do is a direct result of who they are.

You have done work characterizing the Logan family by identifying character traits. Many of these character traits are revealed through the way they react to a conflict in their lives.

In the chart provided, list a conflict/problem the Logan's encounter in Chapter 3. Then, explain how they deal with, or react to, or try to solve the conflict/problem. Next, identify a character trait that this action reveals. Be ready to discuss and explain your answers in class.
