

THE OUTSIDERS

CHAPTERS 11 & 12

After you have read chapters 11 & 12 , develop 4 discussion questions that we as a class could discuss about the events in the book/chapter. These discussion questions should not be **thin**—that is, they should not be answered with a yes or no, or a line in the book. They should not be PLOT questions. Instead, the discussion questions should be **thick**. They should make us think, and infer about character, theme, motivations. **Thick questions** should make us analyze and use the text to PROVE our answers.
